Weekly Report – Week 4

Overview

This week marked the final phase of the project. The focus was on completing the frontend implementation, preparing the presentation, and delivering the final demo. A retrospective session was also held to reflect on the team's progress and improvements.

Daily Activities

- **Monday – Wednesday:**

    o Focused on preparing the presentation slides and refining the demo flow.

    o Practiced the speech to ensure smooth delivery during the final presentation.

    o Coordinated with teammates to align presentation responsibilities and transitions.

- **Thursday:**

    o Participated in the **Sprint Retrospective**, where the team discussed achievements, challenges, and opportunities for improvement.

    o Provided feedback on the workflow and identified ways to enhance collaboration for future projects.

- **Friday:**

    o Delivered the **final project presentation** to showcase the completed system.

    o Walked through the demo, highlighting major features such as user authentication, book management, notifications, and borrowing requests.

    o Responded to feedback from the audience and demonstrated key technical solutions.

Completed Tasks

- Finalized all **frontend features**.

- Prepared and delivered the **project presentation** with supporting materials.

- Practiced and refined the **presentation speech** for clarity and confidence.

Milestones Reached

- Successfully completed the **frontend development**.

- Conducted the **final project demo and presentation**.

- Held a **Sprint Retrospective** to conclude the development cycle.

Contributions

- Implemented and polished the frontend interface.

- Actively prepared the presentation materials and structured the demo flow.

- Presented project functionalities during the final demo, ensuring clarity and coherence.

- Shared feedback and insights during the Retrospective to support continuous improvement.

Workshops and Training

- No new workshops or training sessions were attended this week, as the focus was on preparing and presenting the final project.
